Testing the hinterland
the work of the Boeotia Survey
(1989–1991) in the southern
approaches to the city of Thespiai

By John Bintliff, Phil Howard & Anthony Snodgrass

with contributions from Oliver Dickinson, Mark Gillings,
John Hayes, Robert Shiel & Joanita Vroom

in association with the British School at Athens

**Chapter 1**  Introduction to the Thespiai South/Leondari Southeast Area: a City and its Nearer Hinterland  
**Chapter 2**  New Procedures and Objectives  
**Chapter 3**  Principles of Analysis, i: Periodization  
**Chapter 4**  Principles of Analysis, ii: Statistical Weighting  
The extensive and intensive data: the visibility factor  
District off-site values  
Interpretation of the district off-site trends  
Origin of the off-site materials  
The residual analysis  
Sample fraction statistics  
**Chapter 5**  Functional Analysis  
**Chapter 6**  Analysis of the Individual Sites  
Site Leondari Southeast (LSE) 1  
Site LSE 2  
Site LSE 3  
Site LSE 4  
Site LSE 5  
Site LSE 6  
Site LSE 7  
Site Thespiai South (THS) 1  
Site THS 2  
Site THS 3  
Site THS 4  
Site THS 11  
Site THS 12  
Site THS 13  
Site THS 14  
Site THS 15  
Site THS 16  
Site THS 17  
Addendum: The ‘Thespiai West’ Cemetery  
The Palaeokarandas/Askris Salient  
**Chapter 7**  The Soils and Agricultural Potential of the Thespies Area  
*by Robert Shiel & Andrew Stewart*  
Survey methodology  
Climate  
The landscape of the Pleistocene deposits  
The landscape of the alluvial plain  
The soils of the Thespies area  
Suitability of crop production on these soils  
Land capability  
The modern extent and distribution of these soils  
Archaeological interpretation  

by Robert Shiel

&

Andrew Stewart

Survey methodology

Climate

The landscape of the Pleistocene deposits

The landscape of the alluvial plain

The soils of the Thespies area

Suitability of crop production on these soils

Land capability

The modern extent and distribution of these soils

Archaeological interpretation
Environmental changes 103  
Impact of change on the productive potential of the area 105  
Comparison with other areas 106  
A land-use strategy for Thespiai 106  
Appendix 1 108

**Chapter 8**  Spatial Analysis of Boeotia Field-walking Data  
 *by Philip Howard* 111

**Chapter 9**  The Sites in their Setting: Distribution, Chronology, Function  
Prehistory 129  
Geometric to Archaic 131  
Classical to Early Hellenistic 132  
Excursus: the question of population density in the *chora* of Thespiai 143  
Late Hellenistic and Early Roman 151  
Middle to Late Roman 155  
Medieval 166

**Chapter 10**  Conclusion 171  
The narrative of the landscape 171  
The medieval era 179  
Occupational cycles in the landscape 179

**Appendix A**  The Detailed Site-by-Site Analysis 183  
Site Leondari Southeast (LSE) 183  
Site LSE 2 195  
Site LSE 3 200  
Site LSE 4 210  
Site LSE 5 217  
Site LSE 6 224  
Site LSE 7 233  
Site Thespiai South (THS) 1 241  
Site THS 2 246  
Site THS 3 253  
Site THS 4 260  
Site THS 11 266  
Site THS 12 271  
Site THS 13 277  
Site THS 14 285  
Site THS 15 293  
Site THS 16 297  
Site THS 17 305

**CD Contents**  
*Appendix B1*  The Original Data Base of Finds, Catalogued by Site  
*Appendix B2*  Simplified Summary for Each Site, by Sample-unit (omitting ‘Site’ LSE 2 — see pp. 46–8)  
*Appendix C*  Data Base for Each Site, by Sample-unit, Indicating Numbers of Finds, Surface Area and Visibility with Correction Calculations  
*Appendix D*  The Off-site Transect Collections  
*Appendix E*  Tables and Histograms showing the Areas Occupied in Successive Periods by Each Site (including the city and later village of Thespiai/Erimokastro)
