A woodland archaeology
Neolithic sites at Haddenham

By Christopher Evans & Ian Hodder

With contributions from
David Atkinson, Chris Caple, Edward Cloutman, Chantal Conneller,
Richard Darrah, Natasha Dodwell, Mark Edmonds, Charles French,
Duncan Garrow, Kasia Gdaniec, Dafydd Griffiths, David Gurney,
Robert Johnson, Glynis Jones, Jonathan Last, Frances Lee, Anthony Legge,
Mark Knight, Robert Middleton, Ruth Morgan, Peter Murphy, William Murray,
Michael Parker Pearson, Joshua Pollard, Sylvia Peglar, Jon Price, Tim Reynolds,
Paul Shand, Maisie Taylor, Jennifer Wakeley & Leo Webley

Principal illustrations by
Crane Begg, Marc Berger & Andrew Hall

The Haddenham Project Volume 1

CONTENTS

Vol. 1: A woodland archaeology

Figures vii  
Tables x  
Preface & Acknowledgements xiii  
Summaries xv  

Chapter 1 Introduction: Working Land  
The lie of the land 3  
A fieldwork chronicle 9  
Situating fieldwork 13  
The Neolithic: life in woods 16  
Structure and text 18  
Inset: Tree stories 19  

Chapter 2 The Foulmire Fen Terrace 23  
The palaeo-environmental sequence 23  
The pollen sequence 24  
The Ouse Channel Flandrian sequence (S. Peglar) 26  
Assessing land: a delta landscape 29  
The barrow field 30  
The Hill Row Doles core (T. Reynolds with C. Conneller) 34  
Inset: Peacocks Farm: a scientific archaeology 35  
The dyke-side investigations 36  
Environmental studies 39  
Micromorphological analysis (C.A.I. French) 39  
Pollen analysis (E. Cloutman) 41  
Dating 42  
The excavations 42  
The lithic assemblage (H.R. Middleton) 44  
Lithic densities and distributions 55  
Other finds 57  
Test-pit investigations 57  
The lithic assemblage (H.R. Middleton) 58  
Prehistoric pottery (J. Pollard & R. Johnston) 61  
Discussion 63  

Chapter 3 The Long Barrow: Transforming Wood (and Bodies) 67  
The long mound: a diffuse matrix 67  
Post-mound deposits and features 71  
Trenches B & D 74  
The east end of the mound (Trenches E, F, G, K & L) 74  
The western end of the mound (Trench C) 76  
The barrow ditch 76  
Micromorphological analysis (C.A.I. French) 78  
Mound dynamics and layout 81  
The front-end structures 84  
The façade and forecourt 85  
The mortuary structure 89  
Burning and collapse sequence 97  
Phasing summary: enfolding structures 99  
Inset: Köln-Lindenthal: long barrows and longhouses (J. Last) 102–3  
Construction methods and materials 102  
Structural timbers and roundwood (R. Morgan; with a contribution by J. Price) 104  
Methodology: sampling the wood sections 105
## Contents

The lithic assemblage (H.R. Middleton)  
*The Cracknell Farm scatter*  
Pottery (J. Pollard)  
The lithic assemblage (H.R. Middleton)  
Other lithic sites  
The lithic assemblages (H.R. Middleton)  
Struck flint: an overview (H.R. Middleton)  
Distributions and settlement densities  
Early Neolithic settlement: the problem  
Inset: Forest pastoralism: clearance and cachement  
*Pit settlements (D. Garrow)*  

**Chapter 5**  
The Causewayed Enclosure: a Great Clearance  

The enclosure’s circuits: a hermeneutic circle  
*The enclosure ditches: the 1981 season*  
The 1982 season  
The 1984 season  
The 1987 season  
The ditches: overview  
The palisade  
The 1982 exposure  
The 1984 exposure  
The 1987 exposure  
The palisade: overview  
The interior  
Artefact studies  
Struck flint (H.R. Middleton)  
Condition  
Raw material  
Inset: Gathering and scattering: a horse fair (M. Edmonds)  
Technology  
Metrical attributes  
Chronological variation  
Material exploitation  
Spatial patterning  
The pottery assemblage (K. Godiewiec)  
The assemblage  
Fabrics  
Earlier Neolithic feature sherds  
Decoration  
Context  
Discussion  

Human skeletal remains (N. Dodwell)  
Worked bone and antler (A.J. Legge & J. Pollard)  
Overview discussion: material culture — displaying labour and the dead  
Economic evidence  
Animal remains (A.J. Legge)  
Charred plant remains (G. Jones)  
Overview discussion: a cattle economy  
Context and enclosure: breaking the circle  
Resourceing and labour  
Emergent structures: development trends and design principles  
Distributional patterning and populations  
Dating evidence: an episodic sequence  
Inset: Great Wilbraham 1975–76  
Concluding discussion: acts of construction  
Building communities (and categories)  
Settlement and seasonality  
The permeable barrier: regional affinities  
Planning and enclosure resolution
